UNITY GAME DEVELOPMENT WITH C# GeoLab

JUN 2020 – AUG 2020

VIDEO EDITING AND PRODUCTION American Corner Telavi

FUTURE LEADERS EXCHANGE PROGRAM (FLEX) Lennox High School, USA

● WORK EXPERIENCE

ONAIM – TBILISI, GEORGIA

GAME DEVELOPER – 1 Oct 2025 – Current

Develop and maintain games for a SaaS gamification platform, integrating them directly with the platform's backend systems while ensuring strong performance across browsers.

- Work closely with backend developers to connect gameplay logic with platform services.
- Build scalable, maintainable game code using JavaScript/TypeScript, Python, HTML5, CSS3, and Canvas-based engines such as Pixi.js, collaborating with artists and QA to deliver production-ready experiences.
- Support and monitor live performance for 50k+ daily active players.

● **UNITY DEVELOPER** – 13 Jun 2024 – 30 Sep 2025

- Led development of Lumber Chopper, published by Supercut, reaching 30M+ downloads, 4.6 rating, and Top-5 Simulation worldwide.
 - Took the game from prototype to global launch; owned gameplay systems, UI, analytics, and live-ops content updates.
 - Improved key metrics: playtime 2400 → 3400s, retention 31% → 44%, DAU 500K.
 - Delivered major performance gains on low-end devices (Galaxy A12 21 → 45 FPS).
 - Implemented monetization systems, IAPs, automatic level-generation tools, and DOTween-polished UI.
 - Produced UA ad creatives achieving \$0.49 CPI.
- Developed Farm Manager, published by Supercut
- Contributed to development of Hotel Manager, published by Supercut

GOOGLE DEVELOPER STUDENT CLUB LEAD AT TBILISI STATE UNIVERSITY – GOOGLE DEVELOPER STUDENT CLUBS

– 15 Sep 2023 – Current – TBILISI, GEORGIA

- Organize tech events, workshops, and hackathons.
- Manage logistics, scheduling, and resources.
- Identify and approach potential partner companies.
- Present collaboration opportunities and benefits.
- Secure financial support from tech companies.
- Recruit industry professionals and experts as speakers.
- Produce reports on event outcomes and club achievements.

GAME DEVELOPER – KODUA STUDIO

- Developed mobile games using Unity engine and C# programming language.
- Implemented core game functionalities.
- Integrated features for accessing files on mobile devices and managing camera functionalities using Unity plugins.
- Implemented and integrated animations into the game using Unity's animation system.

STUDENT TEACHING ASSISTANT – IVANE JAVAKHISHVILI TBILISI STATE UNIVERSITY – Sep 2023 – Jan 2024

- Student teaching assistant in Object Oriented Programming 2 (C#)
- Helped to create study materials about fundamentals of OOP
- Helped in grading the papers

● **SKILLS**

Game Development (Unity Game Engine - C#) | Version Control (Git, GitHub, SourceTree, Bitbucket) | performance optimisation | Debugging | Animations in Unity | Adobe Photoshop, Illustrator, Premiere | Data Structures | OOP Principles | Organizational and planning skills | Algorithms complexity and analysis | Leadership | Critical Thinking | Working in a fast-paced environment | Managing Events | Partnership Building | Canva, Figma

● **LANGUAGE SKILLS**

Mother tongue(s): **GEORGIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C1	C1	B2
RUSSIAN	C2	B2	B2	B2	B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **HONOURS AND AWARDS**

Dean's List State Stipend – Ivane Javakhishvili Tbilisi State University

Receiver of a Dean's List State Stipend for my University for the years 2023 and 2024

2018

Future Leaders Exchange (FLEX) Program – US Department of State

FLEX is a competitive, merit-based scholarship program for high school students funded by the U.S. Department of State.

● PROJECTS

The Great Bubble Wars

The Great Bubble Wars – Local Multiplayer Strategy Game | Global Game Jam 2025

- Developed a fast-paced 2-player game in 48 hours based on the theme “Bubbles”
- Designed and implemented four unique bubble troop types per player, each with distinct abilities
- Created strategic gameplay mechanics: team deployment, battlefield control, and castle capture
- Focused on engaging multiplayer experience with dynamic, unpredictable player interactions
- Managed full development cycle: prototyping, gameplay design, and rapid iteration
